EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: One reason for allowance is that the broadest claimed embodiment, represented by claims 72 and 92, is not taught by the prior art of record because the apparatus comprises, *inter alia*, first and second sensors that correspond to first and second longitudinal zones, respectively, and that are coupled to a controller that compares the distances of the first and second sensors spaced from the moving material of the first and second longitudinal zones and varies the position of the roller to vary the load on the moving material accordingly. The prior art does not show a zonal sensing and a comparison of the distances of the sensed zones so as to control the position of the roller and load on the moving material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
